MEMORANDUM OF INSTRUCTIONS

- | | |
|---|---|
| 1. CONTENTS | This Schedule contains a list of Dunlop parts embodied in the VAMPIRE and SEA VAMPIRE Airframes (All Service Marks). |
| 2. DEMANDS | <p>(a) Normally only parts which bear a reference number are to be demanded but if other parts are required the Part Number must be shown on the demand.</p> <p>(b) Demands for parts to make an airframe serviceable must invariably bear the serial number of the airframe.</p> <p>(c) Certain parts in this schedule do not bear reference numbers. These parts, if required, should be made up from local resources or if the manufacture of such parts is beyond the capacity of the unit, the parts are to be demanded, and the demand endorsed "Unable to manufacture locally".</p> <p>(d) Parts quoted in this schedule are held in various Vocabulary Stores sections, the relevant section and reference number being shown in the Reference number column.</p> <p>(e) Demands are to be made out strictly in accordance with the procedure laid down in Air Publication 830, Volume I.</p> |
| 3. EXHAUSTION OF
EXISTING STOCKS ... | An asterisk placed in the Part Number column against an item or group, indicates that further purchases to that design will not be made, but that existing stocks are to be used until exhausted. |
| 4. COMPILATION
OF TEXT ... | <p>The multi-indentation system has been used in which the main assembly, consisting of sub-assemblies, groups and detail items, indicates their relationship by the indentation of the descriptive titles. This indentation is in accordance with the following outlines :—</p> <p>(a) Assemblies, separate Groups and detail parts, start at the left-hand margin.</p> <p>(b) First division—sub-assemblies, groups or detail of the Assembly breakdown listed in the preceding paragraph are indented one column.</p> <p>(c) Second division—groups or details of the first division sub-assemblies or groups are indented one further column.</p> <p>(d) Component items.</p> |
| 5. NUMBERS OFF ... | <p>Numerals in the No. Off column adjacent to the Description column indicate the quantity used for one only of that particular assembly, sub-assembly or group in which they occur.</p> <p>Numerals in the column under the heading Mark Applicability and No. Off Per Aircraft, indicate the quantity of each assembly, separate group or detail used per Mark of Aircraft. Where details of the quantities used have not been available to date of compilation of this Schedule, the applicability is indicated by "X".</p> |

Page ii

- | | |
|---|---|
| 6. SERVICING ...
TOOLS | Special tools, if required, for servicing any Dunlop component listed in this schedule, will be shown in composite form at the end of the text. |
| 7. MAJOR REPAIRS ... | The letter "M" against a group or part indicates that the item is required only for the major repair purposes and will not normally be held in stock by units other than those carrying out Major Repair Work. |
| 8. AMENDMENTS ... | to this schedule will be published by means of Amendment Lists. These Amendment Lists will be numbered consecutively, and Commanding Officers are to issue the necessary instructions for the upkeep of the schedule and the completion of the Amendment Certificate. It is intended, where practicable, to amend the schedule by the insertion of reprinted pages. A Statement of all Amendment Lists distributed during the quarter will be published in Air Ministry Orders. |
| 9. PART NUMBERS ... | When an item or group does not bear a part number in the part number column the drawing on which the item or group is assembled is quoted in parenthesis after the description. This part number, however, must not be quoted on demands. |
| 10. INCORPORATED MODS
AND AMENDMENTS | See Modification and Amendment Record Sheet commencing on Page v. |
| 11. SERIAL NUMBER ... | This schedule is serially numbered and is to be accounted for in accordance with A.M.O. A.772/47. |
